## PROFILE

---

Frontend Developer at Xavirgin and I also take on freelance projects with other clients and companies where I build websites from scratch and take them all the way to production. I like focusing on clean design, smooth user experience, and making sure everything works well across devices. I've also explored AI projects like SoundWave, which got me interested in blending web and intelligent systems.

## EDUCATION

---

2021 – 2025  
Cherthala

**Bachelor of Technology in Computer Science and Engineering with Minor in Electronics and Communication Engineering**  
*College of Engineering Cherthala*  
CGPA: 7.3

Thiruvalla

**Secondary and Higher Secondary Education**  
*Amrita Vidyalayam*  
Class 12: 81.6%  
Class 10: 84.6%

## EXPERIENCE

---

02/2026 – Present  
Kochi, Kerala

**Xavirgin.com**   
*Frontend Team Lead*

- Managing the frontend team at Xavirgin, assigning tasks and guiding team members while ensuring the apps we build are fast, reliable, and consistent across the board.
- Collaborated with backend and product teams to implement API integrations and deliver consistent, responsive user interfaces.

12/2025 – 02/2026  
Kochi, Kerala

**Xavirgin.com**   
*Full-stack Developer Intern*

- Worked on the Full-stack Team of Xavirgin.com, building responsive and user-friendly pages using React and TypeScript.
- Implemented APIs to integrate frontend components with backend services.
- Collaborated with design teams to enhance overall user experience.

01/2026 – Present  
Remote

**Dodo Interactive**   
*Software Engineer*

- Working as a freelance developer for Dodo Interactive, where I built a production-ready site from scratch, taking it from design to production.
- Developed a clean, responsive interface focusing on smooth performance across devices.
- Made sure the overall experience felt polished and true to the client's requirements.

## PROJECTS

---

- 2026 **Alayees Group Website**
- Developed a modern, multi-page corporate website for Alayees Group using React and SCSS, showcasing their services, history, global presence, and contact flows.
  - Created reusable, animated UI components for smooth navigation across devices.
  - Live Website: <https://www.alayees.com/> 
- 2025 **SoundWave: A Speech Assistance App for People with Stuttering**
- Built an AI-driven system combining Speech-to-Text (Vosk ASR), Next-Word Prediction (GPT-2), and Text-to-Speech (YourTTS with voice cloning).
  - Enhanced fluency for users with stuttering by predicting and vocalizing phrases in a personalized voice.
  - Applied NLP and TTS concepts to solve a socially impactful problem.
- 2025 **Kochi Stories Website**
- Built a tour guide portfolio and booking platform for client, enabling users to easily explore local experiences and book personalized tours in Kochi.
  - Designed and developed a responsive, user-friendly interface, focusing on smooth navigation and an engaging experience across devices.
  - Live Website: <https://kochistories.vercel.app/> 
  - Github: <https://github.com/sreenaddh/kochistories> 
- 2024 **Medicinal Herb Identification**
- Automated identification of 10+ Indian medicinal plants through image classification models.
  - Achieved high precision by leveraging CNN architectures for mobile and web deployment.
